

DEPARTMENT OF HEALTH AND HUMAN SERVICES Health Resources and Services Administration SAMPLE CLINICAL PERFORMANCE MEASURE <i>All applicants are required to complete all fields unless otherwise stated. Example responses are provided for one Clinical Performance Measure - Diabetes</i>	FOR HRSA USE ONLY	
	Grant Number	Application Tracking Number
	XYZ Health Center	000000
Focus Area: Diabetes <i>This field contains the content area description for each required performance measure. Applicants will specify focus areas when adding Other performance measures.</i>		
Performance Measure <i>This field defines each performance measure and is editable for Oral Health and Other performance measures. Edits must be explained in the Comments field.</i>	Proportion of adult patients with a diagnosis of Type I or Type II diabetes whose hemoglobin A1c (HbA1c) was greater than 9% at the time of the last reading in the measurement year.	
Target Goal Description <i>This field provides a description of the target goal.</i>	By the end of the project period, decrease the percent of adult patients with type 1 or 2 diabetes whose most recent HbA1c is greater than 9% from 65% to 55%.	
Numerator Description <i>In the Clinical Performance Measures, the numerator is the number of patients that meet the criteria identified by the measure (e.g., patients in a specified age range that received a specified service). This field can be edited for any previously self-defined performance measure. All edits require justification in the Comments field.</i>	Number of adult patients whose most recent HbA1c during the measurement year is greater than 9% among those patients included in the denominator.	
Denominator Description <i>In the Clinical Performance Measures, the denominator is all patients to whom the measure applies (e.g., patients in a specified age range, regardless of whether they received a specified service). This field can be edited for any previously self-defined performance measure. All edits require justification in the Comments field.</i>	Number of adult patients aged 18 to 75 years as of December 31 of the measurement year with a diagnosis of Type I or Type II diabetes who have had been seen in the clinic for medical visits at least twice during the reporting year and do not meet any of the exclusion criteria.	
Baseline Data <i>Competing continuation applicants: These fields will pre-populate data and are not editable for the required performance measures. To report more current data, include information in the Comments field.</i> <i>For previously-self defined performance measures, pre-populated information can be edited; justification is required in the Comments field.</i> <i>Other Applicants: Complete these fields based on current data.</i>	Baseline Year: 2014 Measure Type: Percentage Numerator: 2600 Denominator: 4000 Calculated Baseline: 65%	
Progress Field <i>Competing continuation applicants area MUST use this field to provide information regarding progress since the application that initiated the budget period.</i> <i>This field is not applicable for new and competing supplement applicants.</i>	Percentage of adult (18 to 75 years old) diabetic patients whose HbA1c levels are greater than 9% has decreased to 65%. This is a decrease of 6% (from 71%) since initiation of the current project period in 2013.	
Projected Data (by End of Project Period) <i>This field provides the goal for the end of the three-year project period.</i> <i>Competing continuation applicants should ensure that this goal is a three-year projection from the 2014 UDS baseline data (i.e., to be met by December 31, 2017).</i>	55%

Data Source & Methodology <i>Applicants are required to identify a data source and discuss the methodology used to collect and analyze data.</i> <i>For Clinical Performance Measures, applicants must select the data source—EHR, Chart Audit, or Other (please specify)—before describing the methodology.</i>	Data Source: <input checked="" type="checkbox"/> EHR <input type="checkbox"/> Chart Audit <input type="checkbox"/> Other (If Other, please specify) : _____ Data Source and Methodology Description: Audit of all applicable patient records utilizing EHR system installed in 2008. (Data from 2014 UDS report – data run occurred (1/7/2015)).	
Key Factor and Major Planned Action #1 <i>All applicants must provide at least one contributing and one restricting factor.</i> <i>The Key Factor Type subfield requires applicants to select Contributing and/or Restricting factor categories. Applicants must specify at least one key factor of each type.</i> <i>The Key Factor Description subfield provides a description of the factors predicted to contribute to and/or restrict progress toward stated goals.</i> <i>The Major Planned Action Description subfield provides a description of the major actions planned for addressing key factors. Applicants must use this subfield to provide planned overarching action steps and strategies for achieving each performance measure.</i>	Key Factor Type: <input checked="" type="checkbox"/> Contributing <input type="checkbox"/> Restricting Key Factor Description: XYZ offers a variety of pharmaceutical assistance programs, including the provision of free, discounted, or generic medications as well as medications through its 340B Federal Drug Pricing arrangement. At least 70% of diabetic patients are on a total of 3 to 8 medications because of co-morbidities and complications. The pharmaceutical assistance programs improve compliance by helping relieve the financial burden of multiple prescribed medications. Major Planned Action Description: Increase education and outreach efforts to diabetic patients on using the pharmaceutical assistance programs to improve medication adherence and ultimately improve HbA1c.	
Key Factor and Major Planned Action #2	Key Factor Type: <input type="checkbox"/> Contributing <input checked="" type="checkbox"/> Restricting Key Factor Description: Integrating Diabetes Collaborative activities into the current work flow remains challenging. The agency-wide team would like to meet more frequently, but providers have little allocated administrative time and full clinical schedules. Any additional system stress negatively affects patient care management. Major Planned Action Description: Implement daily huddles with the care team that includes time to share quality dashboard updates and discuss interventions to improve care delivery.	
Comments (optional) <i>Competing Continuation Applicants: May provide baseline data updates, as applicable, and/or other comments as desired.</i>	XYZ is participating in a state-wide initiative to improve outcomes for patients with diabetes.	

Public Burden Statement: An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control number for this project is 0915-0285. Public reporting burden for this collection of information is estimated to average 1 hour per response, including the time for reviewing instructions, searching existing data sources, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to HRSA Reports Clearance Officer, 5600 Fishers Lane, Room 10-29, Rockville, Maryland, 20857.
